**Subject:** Re: [Plejarens\_are\_real] Re: Roswell UFO case

Dear Dave Thomas,

I must write you to say this. I personally have investigated the Meier case, for my own curiosity. If one investigates the information, there is scientific evidence that Meier is telling the truth. (Please note, that i am not a member of FIGU) Also, Marcel Vogel is a scientist who looked into the Meier case, and found no evidence of fraud. But personally, i have spent many , many hours at the library and other sources researching this, because i do not like to be led to believe false things. So i must disagree with you if you say the case has not been scientifically investigated. I also must say, that i do not care if you believe the case or not. I only have looked into the information provided by the Plejarens and Billy for my own personal curiosity. IF you spend some time at the library, and at NASA websites, and other scientific sites including modern medicine, you will find that there is much truth in the Meier case. And if you do , or do not, i dont really care like i said before, as i have only looked into this for my own and i think everyone should do the same for their own sake. But i must say, that i am not being paid to say any of this and i still believe the Meier case. It is not a bunch of hot air. Your words indicate a lack of research of the information in the contact notes. I am sorry that your defensiveness is getting in the way of you seeing and finding and researching things that could help you in the future. It is sad that people remain ignorant due to their lack of real research.

Believe what you will.

You can lead a horse to water, but you can't make him drink.

Michael knows what he is talking about, but if you dont believe the case, then please leave us alone.

Shan

P.S. The photos become very insignificant when you research the information and realize that that is what really matters.

*Dave Thomas <nmsrdave@swcp.com> wrote:*

Mr. Horn, may I suggest that you not put words in my mouth. I did not "discover" Randi was lying. Instead, I discovered that you are

a great big  
windbag who has been falsely prattling for months that Randi's  
mention of  
"farce" in connection to Horn's support of Billy Meier's claims  
was REALLY  
a charge that Meier hoaxed everything. If you're so good with  
words, Mr.  
Horn, may I suggest you look up "hoax" and "fraud" in the  
dictionary. They  
have quite different meanings, with one referring to a comedy,  
and the  
other referring to intentional deception. I'll leave you to  
figure out  
which is which.

It's obvious that Horn is doing all this to deflect attention  
from the  
5-month+ period during which he has refused to have any of  
Meier's claims  
put to a real scientific test.

In the words of the Bard, Mr. Horn's claims are "a tale, full of  
sound and  
fury, told by an idiot, signifying nothing."

'Course, the rest of you folks knew that already!

Sincerely, Dave Thomas
