Subject: Re: James Randi Educational Foundation: As send to Randi

I see that such profundity, logic, depth and insightful thinking run in the JREF/CFI-West/IIG family.

Really, aren't you embarrassed to send such an adolescent non-response in light of the truly "goofy" and failed presentation by Mr. Maus?

Try to comprehend: He retracted his argument that Meier used model trees and model UFOs. And if you don't think that he did, ask him to publish that claim now, if you're looking for another masochistic moment.

That page was indeed deliriously goofy.

Hey Skepti-fellas,

You may want to read the two new articles at www.theyfly.com, one featuring the expose of Derek "The Mausmeister" Bartholomaeus and his deliriously goofy, unscientific and bumbling presentation in my new film, The Silent Revolution of Truth.

It seems like he's effectively retracted his core premise, i.e. that Billy Meier used model trees and model UFOs. He actually used the argument that "similar trees mean the same tree", etc. and then I guess reality set in...a bit late, the film's already selling in 20 countries.

Oh heck, you'll just have to read it for yourself. First Vaughn Rees, then Randi, now the faMaus Maus!

Oh yeah, the first article there is another slam dunk, proof positive for Meier and

his information. As I said, have a good read...and then see if you can find some work for the Maus, somewhere where he won't further discredit you geniuses...as if that was possible.

Have a wonderful day, your pal,

MH
